

TRU GOLF

TRU GOLF ™
DRIVING REALITY

GOLF SIMULATORS

Our simulation systems have completely redesigned the way golf simulation is done. We offer several affordable models, each provide realistic graphics, precise analytics, and simple set-up and maneuverability. With every use of your simulator, you will be treated to a unique and exciting experience. Whether your swing needs perfecting or you want to play for relaxation, our simulators are exactly what you are looking for.

Previously, the only time you could work on your golf game was when the weather was nice and sunny outside. Now with golf simulator technology from TruGolf, your practice or recreational golfing needs can be met anytime, anywhere.

PREMIUM GOLF SIMULATOR

The **PREMIUM** delivers upscale customizable designs complimenting the aesthetics of commercial and home environments. Unmatched graphics coupled with our HD projection 16:10 aspect ratio, TruGolf provides a simulator experience enjoyed by all.

"I do all my practicing inside now, this simulator gives me better feedback than hitting hundreds of balls on the range and I can quickly get my swing to where it needs to be before I head out to my next event. I only wish that this technology was available 30 years ago."

Larry Nelson
Winner of 3 Major Championships

| Premium Simulator | Height | Width | Depth |

SIGNATURE

GOLF SIMULATOR

The **SIGNATURE** is traditional in design, provides an authentic indoor golf experience, and works for residential and commercial environments. With cutting edge swing analysis tools it's ideal for indoor golf facilities, retail space, instructional academies and club houses.

"When researching numerous golf simulator companies, TruGolf proved to be the best fit for my family's needs.

The simulator is accurate and their E6Golf software is loaded with courses, and a practice range perfect for honing in my golf game. I'm very happy with my TruGolf Simulator and look forward to many hours of family fun."

*Mike McCarthy
Professional Head Football Coach

TECHNIQUE

The **TECHNIQUE GOLF SIMULATOR** was developed with the teaching Pro & aspiring golfer in mind. Each Technique model comes complete with TruTrac Tracking System, E6GOLF Software and Integrated Swing Analyzer. Any of our Technique Models are perfect for club houses during the winter season or converting that extra garage space into a full indoor golf experience at an affordable price.

"The TruGolf Technique Prestige simulator has been pivotal in establishing a realistic and challenging golf experience to members of The Jeremy Golf and CC during the cold winter months. The members enjoy participating in weekly shop games, monthly demo days and closest to the hole contests. It provides a year round golf experience that has been embraced by both members and staff."

Jake Hanley

PROFESSIONAL

PERSONAL

SOFTWARE

Improving **E6GOLF** -the most authentic 3D Graphics and Golf Physics experience available- wasn't easy, but we've done it. Even more realistic rendering, *refined physics and putting models, redesigned user interface, enhanced practice, and the ability to compete with people from around the world* makes the latest iteration of E6Golf the best yet.

E6GOLF LITE is a scaled down version that offers beautiful 3D rendered images. With less graphic intensive visual features, E6Golf Lite will in turn run seamlessly on older computers or on new computers/laptops that aren't equipped with the latest powerhouse graphics cards.

Our state of the art practice area provides the feedback for a more precise practice session. *Better practice leads to better results!*

GOLF COURSES

GOLF COURSES have long been recognized as some of the most beautiful places on earth. Each course in E6Golf is accurately replicated down to the finest detail. Not only do they have the same look and feel of the real course, but they play like the real course as well.

We offer the most prestigious course library in the industry, with 86 courses currently available. According to Golf Digest, 18 of our courses are ranked in the "Top 100 Courses in America", 23 are ranked in the "Top 100 Courses in the World", and 32 hold televised events.
